## SNAKE LEADER TO SURRENDER

HEAVY STATE REWARD WILL BE  
PLACED ON LEADER'S HEAD  
IF SURRENDER IS NOT  
FORTHCOMING.

## TROOP REDUCTION HAS BEGUN

Hoffman Reports Conditions to Gov-  
ernor Haskell and Recommends  
a Reduction in the Militia  
Forces.

Pierce, Okla., April 1.—Dead or  
alive, Crazy Snake must be taken  
within the next twenty-four hours,  
or thereafter a heavy reward will be  
placed on his head by the state and  
the field will be cleared for a free-  
for-all chase. This is the substance  
of an ultimatum given to the wife of  
the refugee chieftain by Colonel Roy  
Hoffman, in command of the state  
troops, this afternoon.

Colonel Hoffman began a reduction  
of his forces today, but the larger  
body of men will occupy Camp Tiger  
as a base of operations during the  
remainder of the campaign, which  
Colonel Hoffman believes will be  
brief. Captain Mont Highley and  
Lieutenant Colonel Charles West left  
for their homes today. Captain Hun-  
ter of company M and 13 men today  
returned to Camp Hickory to replace  
the larger body of men which was  
transferred to Camp Tiger.

The telephone wire between Henry-  
etta and Camp Tiger, which was  
installed yesterday by the engineer-  
ing corps, was cut last night about

midway between the two points.

Wearing a rubber coat with blood  
around the bottom, W. M. Morrey,  
an Indian came into camp today. He  
said he got the coat from Sam  
Baird, at whose house Crazy Snake  
is believed to have stopped some of  
the time since Sunday. Morrey is  
sure the coat was worn by Crazy  
Snake.

An Indian came into Camp Tiger  
today and reported that Crazy Snake  
had said he would surrender to Col.  
Hoffman if the militia would be sent  
away. A farmer whose name was  
not learned was killed accidentally  
in his barn two miles west of Camp  
Tiger last night.

### Col. Hoffman's Report.

Following is the report submitted  
to Governor Haskell by Colonel Roy  
Hoffman today:

"Sir—It is almost impossible to  
give you telephone service and have  
been prevented from any direct com-  
munication with you, and nothing of  
sufficient importance has occurred to  
warrant sending messages over tele-  
graph wire.

"Tuesday 1 advanced with sixty-  
eight officers and men and searched  
the country adjacent to Lenna. Then  
I left command and came on that  
night here, where I met Major Herr  
and Captain Hunter with ten men  
Sunday night. Lenna is about 24  
miles from Camp Hickory.

"Yesterday, March 31, I ordered the  
troops from Lenna here. They ar-  
rived at 2 p. m. Posted guards at  
the Arbois crossing and North Fork,  
10 miles distant. It was reported  
that Snakes would try to cross after  
leaving with company. Have scouted  
around here for a distance of five to  
eight miles. Fully covered Tiger  
mountains and Brush hill. Ordered  
all remaining force up from Camp  
Hickory on skirmish line which ex-  
tended from two to four miles. Mes-  
senger has just reported that they  
camped at Silver Springs, in the  
Tiger mountain, last night. First col-  
umn reached here 11 a. m.; second  
column at 4 p. m.

"Captain Robertson advised by tele-  
phone that the line from Hickory to  
Henryetta was cut to pieces last  
night. Have ordered Captain Hunter  
and his men to return there today.  
All heavy baggage and tents left at  
Hickory camp ground with remainder  
of force.

"Talked with wife and daughters  
of Crazy Snake yesterday. They claim  
they do not know where he is, but  
I believe they can be persuaded to  
turn him over. One Indian came in  
last night and I sent out a detach-  
ment under Major Herr during the  
night and captured three others.  
Those brought in claim that the In-  
dians are afraid to give up or re-  
turn for fear the deputies will kill  
them.

"Officers and men have been living  
in dog tents and field rations, and  
have stood the work well, are in ex-  
cellent condition.

"Do not need the number of men  
we have now, and will return four  
officers and twenty men via Checotah.  
Others will follow as soon as Crazy  
Snake and his band are taken, which  
I consider will be soon and certain.

"There has been entire harmony  
all the time between the officers of  
the federal government and ourselves.  
Several white settlers in this country  
left their homes at the beginning, but  
they are now returning and the farm-  
ers are again at work and peace,  
order and quiet have practically  
been restored.

"Newspaper men on the ground  
with me are sending out reliable re-  
ports which are in substance that  
there have been no fights or casual-  
ties since the fight at Harjo's home  
last Saturday evening, when two de-  
puties were killed. Any reports to the  
contrary are false. Harjo's home  
here has been burned.

"The newspaper men that are with  
us are: Fred Barde, Guthrie; E. A.  
Nash, Oklahoma City, and C. H. Hag-  
arty of the Associated Press."

What! The big Banquet! When?  
Tomorrow night.

### Sheriff Smith Makes Capture

Sheriff Tom Smith and Deputy Os-  
car Collins arrived yesterday after-  
noon from Mount Vernon, Tex., where  
they arrested Dave and Ed Johnson  
on warrants charging complicity in  
the murder of Marshal Putnam, at Al-  
len, several weeks ago. They waived  
preliminary hearing and were placed  
in the Pontotoc county jail.

## TOMORROW THE DAY; ADA THE PLACE

Gov. Haskell, Oklahoma's  
Great Commoner and  
Ada's Friend Will  
Address the Peo-  
ple at Two

THE NORMAL SPECIAL  
WILL MEET HIM AT KONAWA

Special Train Will Leave Ada at Nine  
O'clock, Meeting the Governor  
at Konawa and Returning  
at Eleven O'clock

Tomorrow is jubilee day in Ada,  
and tomorrow night will witness the  
biggest banquet and entertainment  
that Ada has ever undertaken. Not-  
withstanding whatever reports there  
may be to the contrary this will be  
the biggest affair ever pulled off in  
these parts, and every citizen should  
be on hand and take active part.

Governor Haskell, with other dis-  
tinguished visitors, will arrive at 11  
o'clock and will speak on the streets  
at two, as it is now certain that  
there is not a building in the city  
that will accommodate the immense  
crowd that will be here to see and  
hear the governor.

The governor and party will arrive  
over the Katy at 11 o'clock. They will  
be met at Konawa by a special train  
which leaves Ada promptly at nine.  
This train is known as the Ada Nor-  
mal Special and will carry the many  
friends and admirers of the governor  
who wish to make him feel welcome,  
and who wish to give the party a  
touch of Ada hospitality before they  
get into town. The Ada band will  
be on the train and nothing will be  
left undone which will tend to make  
the trip one of merriment and good  
cheer.

Let everybody who can get on  
board the Normal Special, let those  
who can't help in the preparation  
here, but let everybody attend the  
speaking at two o'clock.

### Officers Arrive With Miller.

Chief of Police George Culver ar-  
rived over the Frisco from Fort  
Worth, Texas, yesterday afternoon  
with Jim Miller, wanted on a charge  
of connection with Bobbitt murder,  
and placed him in the county jail.

When the train arrived there were  
about five hundred men at the de-  
pot, curious to get a glimpse of the  
man about whom there has been so  
much said during the past few weeks.  
The officers came up Townsend ave-  
nue to the jail yard and the crowd  
was so dense that the street was  
completely blocked when a halt  
was made at the jail yard entrance.

Miller appears to be about forty-  
five years of age, rather slender build,  
dark complexion and wears moustache.  
He was well dressed and bore the  
appearance of a business man, rather  
than that of a cattle man and farm-  
er.

At this writing it is not known just  
what disposition will be made of his  
case relative to preliminary hear-  
ing.

### Hunter Wants Control.

Muskogee, Okla., April 1.—Charlie  
Hunter of rough rider fame and late  
republican boss of Oklahoma is again  
itching for control of the republican  
state machine and has a long knife  
up his sleeve for Joe Norris, the  
present chairman.

While Norris was in Washington  
trying to land with the Taft admin-  
istration, Hunter was quietly at work  
here making trouble for the boss  
and he has reached a point where  
he is getting bold enough to get out  
into the open. He is in Muskogee  
conferring with republican leaders  
and states that the republicans of  
the state are dissatisfied with Nor-  
ris and the way he is running things.  
It is believed here that Hunter has  
formed a combination with the Creag-  
er cohorts for an effective fight on  
Norris.

## OUR GUTHRIE CORRESPONDENT

Guthrie, April 1.—Senator Campbell Russell has his petitions ready to be signed which will be known as (State Question-Initiative Petition No. 2) commonly known as the New Jerusalem Bill. It is an almost exact copy of the bill which was defeated in the Legislature. The title of the act is as follows: An Act to create a district to be known as a New Jerusalem District and providing for the acquiring, locating, survey, control and management of the same, and making an appropriation therefor.

The act provides that any citizen may submit a proposition for location provided that options have been secured on all the land embraced which shall be not less than six sections, locating within fifty miles of the center of the state. The commissioner of the school lands are empowered to sell to the state at its appraised value any school lands embraced in any proposed location.

Senator Russell says that the 20,000 names necessary to initiate the measure will be filed by the first of May.

As an inducement to hinders he proposes to give a fine registered heifer to the person who secures the most petitions by the 22nd of this month. Mr. Russell says that a sister of the heifer was recently sold by him for \$110.

Everybody is familiar with the great cry that recently went up from the railroads against the laws of Oklahoma, charging confiscation of property, and loss of money in operating

the roads. The railroads bore down on the commercial clubs and the commercial clubs became alarmed and bore down on the people the press and the legislature. Our constitution requires a sworn report to be made to the Corporation Commission, showing total operating revenues, operating expenses and net income for each month and these reports reveal the fact that railroads are making more money now than they did before the rates were reduced. Take for instance the report of the Gulf, Colorado and Santa Fe. During the month of November, 1907, their operating revenue was \$1,963,674.78. Their operating expenses were \$912,900.19 leaving their net income at \$1,050,774.59. In November, 1908, just a year later and when the new laws were in thorough operation the report, sworn to, makes the remarkable disclosure that the same road received from operating revenues the sum of \$1,354,397.21. The operating expenses were \$877,432.93 leaving the net income \$476,964.28 or an increase of \$326,199.69 for one month and on the one road. This appears to be pretty healthy increase and does not justify the cry that railroad property is in danger of confiscation or that railroads are afraid to invest more money in Oklahoma. This is one instance but there are many more just like it. The corporation commission has one file many sworn statements that show even a larger increase in the net income of railroads.

Few people realize the care and forethought that has been exercised by the legislature of the state and by the insurance commissioner to

place insurance, both Fire and Life, on an absolutely sound basis. We who live in Oklahoma have come to regard insurance as an absolutely safe proposition and so it is in Oklahoma and policies are paid and losses equitably adjusted with all possible haste. It has been a long time since any one heard of a loss not being paid on account of the insolvency of the company and we have come to view these things as a matter of course, but in reality it is the result of wise laws and persistent vigilance on the part of the insurance commissioner who appears to have the faculty of detecting fakes to the same degree that a fine bird dog can locate a quail and McComb is not slow in ousting unsafe or questionable insurance companies. Oklahoma owes much to this quiet, unassuming, hard working official who believes that his first duty is the protection of the interests of the people.

In a recent letter to an insurance journal that had misrepresented the Oklahoma laws he said: "In Oklahoma we believe in insurance that insures; we believe that insurance means indemnity, to insure, to make certain; we believe that insurance is one of the greatest businesses in America, taken in all its branches, Oklahoma welcomes all insurance companies that are willing to comply with our laws and give to the people of the state a square deal; but we positively turn our backs on the institutions that will not comply with our laws."

The above quotation serves to show that a healthy condition in Oklahoma is not the result of chance. While speeding along on a flying express passenger often forgets that it requires an infinite amount of care and caution to provide for his safety and that the said care is the only thing that stands between him and destruction, and the situation is not materially different from that of the man who is enjoying the safety provided against disaster by insurance. It is all right so long as every precaution is exercised to prevent wildcat companies from wrecking the insurance train. Just now we are fortunate in having an experienced and competent engineer.

What? The big Banquet! When? Tomorrow night.

### CONFIDENCE

We Back up Our Statements With Our Personal Reputation and Money.

We are so positive that we can cure constipation, no matter how chronic it may be, that we offer to furnish the medicine free of all cost if we fail.

It is worse than useless to attempt to cure constipation with cathartic drugs. Laxatives or cathartics do much harm. They cause a reaction, irritate and weaken the bowels, and make constipation more chronic. Besides, their use becomes a habit that is dangerous and often fatal.

Constipation is caused by weakness of the nerves and muscles of the large intestine or descending colon. To expect a cure you must therefore tone up and strengthen those organs and restore them to healthier activity.

The discovery of the active principle of our remedy evolved the labor of the world's greatest research chemists. It possesses all the best qualities of the remedial active principle of the best known intestinal tonics, and it is particularly prompt in its results.

We want you to try Rexall Orderlies on our guarantee. They are exceedingly pleasant to take and are ideal for children. They act directly on the

nerves and muscles of the bowels. They have a neutral action on other organs or glands. They do not purge or cause any inconvenience whatever. They will positively cure chronic or habitual constipation and the myriads of associate or dependent chronic ailments. Try Rexall Orderlies at our risk. The Gwin-Mays Drug Co. ## OUR WASHINGTON LETTER

Special to the News.

Washington, April 1.—The republican party has suddenly awakened to a realization of irreparable losses as a result of its fight over Cannon and the house rules. The dissention today existing in the ranks is of such serious proportions in the opinion of many as to practically insure a democratic majority for the next congress.

The "insurgents" of the republican party have said "good bye" to the "standpatters" for all time. This may be put down as final and authentic. Indications are the split in the national republican situation will be very similar to that in the Iowa state republican party. It is not unlikely that within the next year or two there will grow out of the present insurgent forces a national "progressive" party.

Today the insurgent band's strength is insignificant. But the sentiment of the republican voters is with the insurgents, according to all indications, because they fought Cannon and the rules.

That the regular organization is in utter disrepute with a large percentage of republican voters can not be denied. The party has put its "O. K." in large, black letters on Speaker Cannon and the majority that he works with. It refused to see the hand writing on the wall, and must take the consequences.

Work toward organizing the various "insurgent" forces in various parts of the country will begin at once, in order that all available strength will be in working order for us in the next congressional elections, in 1911. The work will be done very quietly, and in all probability without making any general announcements that would tend to attract the attention of the "standpatters." The insurgents' plans are to build up organizations in the central and western states first, and to lie low until it comes time to nominate candidates, and then give the Cannon-Payne-Aldrich-Dalzell crowd the surprise of their lives.

The LaFollette organization in Wisconsin will co-operate with the Munnies forces of Iowa, and Victor Murdock, the insurgent leader of Kansas will join with his following and even Gardner of Massachusetts may "come through" with a little "Progressive" machine.

With the republicans thus divided the democrats hope to "bring home the bacon."

What! The big Banquet! When? Tomorrow night.

**ONE WEAK SPOT.**

Most Ada People Have a Weak Part and Too Often It's the Back.

Everyone has a weak spot. Too often it's a bad back. Twinges follow every sudden twist. Dull aching keeps up, day and night.

Tells you the kidneys need help—For backache is really kidney-ache. A kidney cure is what you need. Doan's Kidney Pills cures sick kidneys.

Cures backache and urinary ills. Ada people recommend the remedy.

E. L. Canterbury, Sixteenth St., Ada, Okla., says: "I can recommend Doan's Kidney Pills very highly as they cured me of a distressing case of kidney complaint. My back was so weak at times that I was unable to work, in fact, found it very difficult to walk. Dull, nagging pains through my loins also caused me great misery, and I had sharp twinges when I attempted to stoop or lift. The kidney secretions were much too frequent in passage and caused me additional annoyance. Doan's Kidney Pills procured at G. M. Ramsey's Drug Store, rid me of the trouble and I have had no return of it since."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

## FT. WORTH ENTERTAINS WILLIAM J. BRYAN

THE GREAT COMMONER BELIEVES ADDRESS AT CITY HALL.

Expects to Spend Winters on His Texas Ranch and Become Better Acquainted With Texas People.

Fort Worth, Tex., April 1.—The city hall was packed to its capacity of about 900 people tonight to hear William Jennings Bryan, who lectured in behalf of the Children's Home Society and the Jeff D. McLean monument fund.

Mr. Bryan arrived in the city this evening over the Fort Worth and Denver and was met at the station by a reception committee, consisting of Col. R. M. Wynne, Rev. J. Z. T. Morris, Rev. H. A. Boaz, Robert McCarty, John Terrell, W. P. McLean, Clarence Ousley, T. J. Powell, Robert Milam, W. D. Williams, Frank Hovenkamp, W. A. Hanger, Tom Bradley, J. W. Swayne, George Mulkey, Winfield Scott, Sam Hunter, Dr. Frank Boyd, Dr. E. L. Stephens, Walton Petet, Rev. Sam R. Hay, Rev. J. W. Fort, Rev. H. M. Long and Judge George W. Armstrong.

Mr. Bryan was entertained at a 6 o'clock dinner at Polytechnic College by the president, Dr. H. A. Boaz. Preceding his arrival at the city hall the Polytechnic Glee Club, consisting of sixteen voices, under direction of Prof. Hemphill, rendered a number of selections, and following each they were vigorously encored, responding each time, the finale being a quartette.

It was near 9 o'clock when Mr. Bryan arrived at the hall. As soon as his presence at the entrance became known a storm of cheers went up, which was prolonged until long after he had reached the rostrum.

Col. R. M. Wynne stepped to the front of the rostrum and announced that after the lecture Mr. Bryan would be pleased to meet and shake hands with those desiring to meet him.

On the platform with Mr. Bryan were Col. R. M. Wynne, George Carden, Judge Sam Hunter and Robert McCarty. The speaker was introduced by Mr. McCarty, who paid a glowing tribute to the distinguished guest, declaring him to be the greatest statesman in America, and one whose name will be written on the pages of fame as the people's greatest benefactor of the age, finally introducing him as the 'Uncrowned King of our Nation.'

"I am glad," said Mr. Bryan, "that we can find in politics friends so kind as to magnify our virtues and overlook our faults. In war, the general gets the glory that belongs to the men who died in the trenches. I have more to be grateful for, even in the comments of the republicans, than I have to complain of. In the discussion of my subject this evening, 'The Price of a Soul,' I hope to prepare the ground for a harvest of political results that will make for the greatness of our country and the good of humanity."

"I have no apologies to offer for taking my subject from the Bible. Christ dealt with the great things, and among these with reference to the soul. Christ asks the question 'What shall it profit a man though he gain the whole world and lose his own soul?' The value of a soul—what is comparable to it?"

Along this line the speaker proceeded, contrasting wealth, political honors and fame, without the real soulfulness back of it that makes for the betterment of the world and humanity, with the value of a soul, not merely as to its salvation, but as to its real value, when others are made partakers of its greatness and the world made better.

He was frequently applauded by the appreciative audience, his logic and eloquence touching a responsive chord.

Mr. Bryan said tonight that he hoped to see more of the people of Texas than heretofore, as he expects to spend the winters on his ranch on the Rio Grande. He had little to say in an interview relative to matters of a political nature.

He will leave over the Frisco for Brownwood tomorrow morning.

What? The big Banquet! When? Tomorrow night.

## HAS FINE HEAD FOR BUSINESS.

Woman's Methods That Aroused Wonder and Admiration.

"If I had my wife's head and nerve I'd own half of Wall street in less than five years," said the man. "It is the way she manages the clothes proposition that aroused me to wonder and admiration. Here is an example of her thrift."

"Early last month she bought a broadcloth dress which, with the extra charge for alterations, cost \$55. Well, after she got the suit home she didn't like it. The store objected at first to taking it back, but her persuasive tongue won them over, and after deducting \$5 for the alterations, they refunded the money. Last week, when nosing around, she saw that same suit on sale for \$35. My wife, it seems, has such a peculiar figure that the suit, after being made to fit her wouldn't fit anybody else, so there was that \$50 garment, and cheap at the price, going for almost one-third off. She of course snatched up the bargain. No more fitting or making over was necessary, so even when counting in her \$5 for alterations, she saved \$15 on the deal. I'd just like you to show me any man who could cor out that well on a transaction in clothes."

### CUSTOM PUZZLED THE VISITOR.

Wedding Ring Arrangement That Englishman Thought Queer.

"Of all your queer American customs," said the Englishman, "and you have many, you know—oh, yes, very many—the queerest is that of the oldest daughter of the first marriage of a woman who has been married twice wearing her mother's first wedding ring."

"How is that?" said the American woman. "That sounds rather complicated. I am afraid I didn't just catch it."

The Englishman repeated.

"In the two weeks that I have been in New York," he elucidated still further, "I have met four maiden ladies of 35 to 45 years of age who wore wedding rings. I asked for an explanation, and each time I found that it was the ring with which the lady's father married her mother. When the mother married again she gave the ring to her oldest daughter. Don't you think that queer?"

"I certainly do," said the American woman, "still I can't believe that it is a national custom or I should have heard of it before."—New York Press.

### Lived Long as Hermit.

There has been discovered in the Australian "bush" or forests a wild Irishman, who had been leading a hermit life for a quarter century. He was of gigantic stature and enormous strength—a good advertisement for vegetarianism, as he had not touched animal food since his retirement from civilization. His hair was four feet long, matted and of considerable thickness. He told the police he was a follower of Christ, Samson and Hercules. His name is John Bernard Fitzgerald and he is 72 years of age. He has never bathed, regarding the practice as irreligious and unnatural. The combined force of half a dozen police, however, compelled him to overcome his scruples.

### Paid for Bride by the Pound.

In the village of Kolked, in Hungary, it has since time immemorial been customary for the bridegroom to give the bride's parents some compensation before the wedding. The other day a peasant farmer named Kotvoes and the parents of his pretty young betrothed could not come to terms as to the amount, and so they agreed to make the mayor arbitrator. That good man, a cattle dealer, valued the bride at 60 cents a pound. As she weighed 86 pounds the happy bridegroom had to pay only \$51.60, and thought himself lucky to get a wife so cheap.

### Chemical Formulas.

In chemistry the elements are represented by accepted abbreviations, called symbols, each of which indicates a single atom of the element. When more than one atom is to be represented, figures are placed to the right of the symbol either above or below the line. A molecule representing a compound is indicated by a series of such symbols called a formula; thus alcohol has for its formula C<sub>2</sub>H<sub>6</sub>O, which shows that a molecule of this substance contains two atoms of carbon, six of hydrogen and one of oxygen.

### Breaking the Rule.

"At our establishment," said the merchant, "we are training our employees to say 'Good-morning,' or 'Good-afternoon' at the telephone, instead of 'Hello.'"

"How does it work?" "It works very well, indeed. Seems to please our customers and gives the establishment an air of dignity. The only trouble we have is with me. I'm the president, you know, and I forget. There's nobody to jog my memory nor call me down. Otherwise it works all right."

### The Value of Politeness.

Hollow trees are always the stiffest, but the mightiest oak, it is found, can bend. The more exalted a man is by station, the more powerful should he be by kindness. There is no policy like politeness, since a good manner often succeeds where the best tongue has failed. Politeness is most useful to inspire confidence in the timid and encourage the deserving.—The Sunday Strand.

## INDIAN ROMANCE.

Quanah Parker, Noted Chief, Has Wonderful Life Story.

### IS NOW A BIG RANCHMAN

Lives Near Lawton, Okla., but Will Join Geronimo in Leading Band of Braves at Fat Stock Show at Fort Worth Shortly.

Born of a white mother, whom his grandfather stole in 1836, from a frontier Texas settlement, and a celebrated Indian chief, whom Lawrence Sullivan Ross and a fellow ranger killed in personal combat in 1860, Quanah Parker, chief of Comanches, who, with Geronimo, chief of the Apaches, comes to Fort Worth with forty of their people during the National Feeders and Breeders' Show, March 13 to 30, has a life story which recalls much of the romance of early Texas history.

First in the story comes the attack on Parker's Fort, in what is now Limesto county, the murder of Silas and John Parker and the carrying away with them of Cynthia Ann Parker. There follows a break of many years in the story, and next comes the duel to the death in Peace river breaks, in 1869, when Lawrence "Sul" Ross, then an eighteen-year-old ranger officer, killed Peta Nacona, chief of the warring Comanches, and captured his squaw, who turned out to be the long lost Cynthia Ann. Cynthia Ann had been too long an Indian to say very much about herself, but it was learned that she had two sons, one of whom was Quanah Parker, and the other had died before reaching maturity. Quanah Parker, the surviving son, and leader of his people for forty years, is the man who will head the band of Indians at Fort Worth.

The building of railroads, the founding of new towns and the pushing out of the ranches and farms has broken up one old open country through which the Comanches had raided for the past hundred years. Perhaps these checks have brought out the white blood in Quanah Parker's nature, for he has settled down on a big ranch near Lawton, Okla., where he raises good cattle, and by shrewd business judgment has become a wealthy man.

DRUID OF POINT COMFORT.

A high grade registered Hereford, No. 219,625, exhibited at the National Feeders and Breeders' show last year. Owned by Oscar L. Miles, Fort Smith, Ark.

### ACRE OF STABLES.

Increased Accommodation For Stock at Fat Stock Show.

There will not be any "grand opera" appliances in connection with the National Feeders and Breeders' Show, to be held at Fort Worth March 13 to 20 this year. It will be remembered that last year it was necessary to use the mammoth tent in which Madame Sarah Bernhardt played when she toured Texas, for the overflow exhibit of cattle and horses from the stables under the big Coliseum. This year the directors of the show have provided better than "grand opera" accommodations for exhibitors, and when the show opens on March 13, new stables covering nearly an acre and a half, immediately adjoining the Coliseum on the north, will be ready for the accommodation of all the horses and cattle entered in the various classes.

With the new arrangements this year visitors may pass from the Coliseum out through the north door and enter the stables, making a complete tour without being exposed to the weather. In the new barns there are accommodations for 634 halter cattle, and these barns will be used exclusively for southern cattle. In the horse barns, which are part of the new buildings, are stalls for 123 head, and extra accommodations can be provided as needed. All cattle from above the quarantine line will be given accommodation in the basement of the Coliseum, thereby separating the cattle from north and south of the quarantine line and doing away with any danger of infection.

### RULING ON AGE.

Secretary of Fat Stock Show Decides on Lambs.

When is a lamb not a lamb? This is one of the problems which confronted Secretary Andrews and his assistant, Mr. C. C. French, this past week. They decided that it could be definitely classed as a lamb until after it was a year old. Full lambs fed through the winter for the spring market are thus made eligible for the \$100 first prize and \$150 in other prizes in sheep class No. 2.

Fat spring lambs easily bring from \$8 to \$10 per hundred weight, and have been known to go to the phenomenal price of \$25 per hundredweight, so that exhibitors, disappointed in obtaining one of the coveted cash prizes, are certain of realizing a satisfactory profit on any desirable stock they may bring to the show.

## Council Proceedings.

The City Council met in adjourned session Thursday night April 1, 1909. Mayor Harrison presided and the following aldermen present: Chapman, Sims, Hill, Hope, Little, Crowder, Evans, Absent Sutton.

Upon a motion by Sims and seconded by Evans the city clerk was instructed to advertise for bids for the construction of sanitary and storm and drainage sewers till 6 o'clock p. m., April 15, 1909. The Metropolitan Engineering and Construction Co. was given till Monday night, April 5th, to file their papers for paving 12th street on a motion by Evans, seconded by Sims.

Little moved and Hill seconded that a committee of three be appointed as a park committee. Carried and the Mayor appointed, Little, Hill and Chapman.

The council then went into executive session to allow architects to submit their plans for a city hall. G. H. Keen, L. Macklemurry and E. S. Peters, submitted plans and after careful consideration the council adopted Mr. Macklemurry's plans.

After considerable discussion of plans for building street crossings the council adjourned to meet at 5 o'clock p. m. April 2, 1909.

placed on his head by the state and  
the field will be cleared for a free  
for-all chase. This is the substance  
of an ultimatum given to the wife of  
the refugee chieftain by Colonel Roy  
Hoffman in command of the state  
troops this afternoon.

Colonel Hoffman began a reduction  
of his forces today, but the larger  
body of men will occupy Camp Tiger  
as a base of operations during the  
remainder of the campaign which  
Colonel Hoffman believes will be  
brief. Captain Mont Highley and  
Lieutenant Colonel Charles West left  
for their homes today. Captain Hunt  
of company M and 1 man today  
returned to Camp Hickory to replace  
the larger body of men which was  
transferred to Camp Tiger.

The telephone wire between Henry-  
etta and Camp Tiger which was  
installed yesterday by the engineer-  
ing corps was cut last night about

midway between the two points.  
Weaving a rubber coat with blood  
around the bottom W. M. Morley  
an Indian came into camp today. He  
said he got the coat from Sam  
Baird at whose house Cray Snake  
is believed to have stopped some of  
the time since Sunday. Morley is  
sure the coat was worn by Cray  
Snake.

An Indian came into Camp Tiger  
today and reported that Cray Snake  
had said he would surrender to Col.  
Hoffman if the militia would be sent  
away. A farmer whose name was  
not learned was killed accidentally  
in his barn two miles west of Camp  
Tiger last night.

### Col. Hoffman's Report.

Following is the report submitted  
to Governor Haskell by Colonel Roy  
Hoffman today:

Sir—It is almost impossible to  
give you telephone service and have  
been prevented from my direct com-  
munication with you and nothing of  
sufficient importance has occurred to  
warrant sending messages over tele-  
graph wire.

Tuesday I advanced with sixty-  
eight officers and men and searched  
the country adjacent to Lenna. Then  
I left command and came on this  
night here where I met Major Hunt  
and Captain Hunter with ten men.  
Sunday night Lenna is about 24  
miles from Camp Hickory.

Yesterday March 31 I ordered the  
troops from Lenna here. They ar-  
rived at 2 p. m. Posted guards at  
the Arjo's crossing and North Fork  
10 miles distant. It was reported  
that Snakes would try to cross after  
leaving with company. Have scouted  
around here for a distance of five to  
eight miles. Fully covered high  
mountains and brush hill. Ordered  
all remaining force up from Camp  
Hickory on skirmish line which ex-  
tended from two to four miles. Mes-  
senger has just reported that they  
camped at Silver Springs in the  
Tiger mountain last night. First col-  
umn reached here at 11 a. m. second  
column at 1 p. m.

Captain Robertson advised by tele-  
phone that the Indians from Hickory  
to Henryetta was out to pieces last  
night. He ordered Captain Hunt  
and his men to return there today.  
All heavy baggage and tents left at  
Hickory camp ground with remainder  
of force.

I talked with Cray Snake and at 5  
o'clock Cray Snake said in plain  
English that he would surrender if  
he did not know where he was out  
of his life. He came up Sunday to  
surrender. One Indian came in  
last night and I sent out a detail  
to meet under Major Hunt during the  
night and captured three others.  
The thought in mind that the In-  
dians are afraid to give up or re-  
turn for fear the deputies will kill  
them.

Officers and men have been living  
in dog tents and field rations and  
have stood the work well in ex-  
cellent condition.  
Do not need the number of men  
we have now and will return four  
officers and twenty men via Checotah.  
Others will follow as soon as Cray  
Snake and his band are taken which  
I consider will be soon and certain.  
There has been entire harmony  
all the time between the officers of  
the federal government and ourselves.  
Several white settlers in this country  
left their homes at the beginning but  
they are now returning and the In-  
dians are again at work and peace  
order and quiet have practically  
been restored.

Newspaper men on the ground  
with me are sending out reliable re-  
ports which are in substance that  
there have been no fights or casual-  
ties since the fight at Haygo's home  
last Saturday evening when two de-  
puties were killed. Any reports to the  
contrary are false. Hunt's home  
here has been burned.

The newspaper men that are with  
us are Fred Bird Guthrie of A  
Nash Oklahoma City and C. H. Hag-  
er of the Associated Press.

## TOMORROW THE DAY; ADA THE PLACE

Gov. Haskell, Oklahoma's  
Great Commoner and  
Ada's Friend Will  
Address the Peo-  
ple at Two

## THE NORMAL SPECIAL WILL MEET HIM AT KONAWA

Special Train Will Leave Ada at Nine  
O'clock, Meeting the Governor  
at Konawa and Returning  
at Eleven O'clock

Tomorrow is jubilee day in Ada

and tomorrow night will witness the  
biggest banquet and in statement  
that Ada has ever undertaken. Not  
withstanding whatever reports there  
may be to the contrary this will be  
the biggest affair ever pulled off in  
this state and every citizen should  
be on hand and take active part.

Governor Haskell will be met at  
Konawa at 11 o'clock and will stay  
at the hotel. He will be met at  
Konawa at 11 o'clock and will stay  
at the hotel.

The governor and party will arrive  
over the Katy at 11 o'clock. They will  
be met at Konawa by a special train  
which leaves Ada promptly at nine.  
This train is known as the Ada Nor-  
mal Special and will carry the many  
friends and admirers of the governor  
who wish to make him feel welcome  
and who wish to give the party a  
touch of Ada hospitality before they  
get into town. The Ada band will  
be on the train and nothing will be  
left undone which will tend to make  
the trip one of merriment and good  
cheer.

Let everybody who can get on  
board the Normal Special let those  
who can't help in the preparation  
here but let everybody attend the  
speaking at two o'clock.

Officers Arrive With Miller  
Chief of Police George Culver ar-  
rived over the Frisco from Fort  
Worth, Texas yesterday afternoon  
with Jim Miller wanted on a charge  
of connection with Bobbitt murder  
and placed him in the county jail.

When the train arrived here were  
about five hundred men at the de-  
pot eager to get a glimpse of the  
man about whom there has been so  
much wild talk during the past few weeks.  
The officer came up Townsend ave-  
nue to the jail yard and the crowd  
was so dense that the street was  
completely blocked when a hail  
was made at the jail yard entrance.  
Miller appears to be about forty  
five years of age rather slender build  
dark complexion and wears mustache.  
He was well dressed and bore the  
appearance of a business man rather  
than that of a cattle man and farm-  
er.

At this writing it is not known just  
what disposition will be made of his  
case relative to preliminary hear-  
ing.

### Hunter Wants Control.

Muskogee Okla. April 1.—Charles  
Hunter of rough rider fame and late  
republican boss of Oklahoma is again  
fighting for control of the republican  
state machine and has a long knife  
up his sleeve for Joe Norris the  
present champion.

While Norris was in Washington  
trying to feud with the federal ad-  
ministration Hunter was quietly at work  
here making trouble for Joe Norris  
and he has scored a point where  
he is getting hold of a sh to go out  
into the open. He is in Muskogee  
contending with republican leaders  
and states that the republicans of  
the state are dissatisfied with Nor-  
ris and the way he is running things.  
It is believed here that Hunter has  
formed a combination with the Creag-  
er cohorts for an effective fight on  
Norris.

## OUR GUTHRIE CORRESPONDENT

Guthrie, April 1.—Senator Campbell Russell has his petition ready to be signed which will be known as (State Question Initiative Petition No. 2) commonly known as the New Deal Initiative Bill. It is in almost exact copy of the bill which was defeated in the Legislature. The title of the act is as follows: An Act to create a district to be known as a New Judicial District and providing for the acquiring, locating, surveying, control and management of the same and making an appropriation therefor.

The act provides that any citizen may submit a proposition for location provided that options have been secured on all the land embraced which shall be not less than six sections located within fifty miles of the center of the state. The commission of the school lands are empowered to sell to the state at its appraised value any school lands embraced in any proposed location.

Senator Russell says that the 20,000 names necessary to initiate the measure will be filed by the first of May.

As an inducement to builders he proposes to give a fine registered heifer to the person who secures the most petitions by the 22nd of this month. Mr. Russell says that a sister of the heifer was recently sold by him for \$110.

Everybody is familiar with the great cry that recently went up from the railroads against the laws of Oklahoma charging confiscation of property and loss of money in operating

the roads. The railroads bore down on the commercial clubs and the commercial clubs became alarmed and bore down on the people the press and the legislature. Our constituent requires a sworn report to be made to the Corporation Commission showing total operating revenues operating expenses and net income for each month and these reports reveal that the railroads are making more money now than they did before the times were reduced like for instance the report of the Gulf Colorado and Santa Fe. During the month of November, 1907, their operating revenue was \$1,000,000. Their operating expenses were \$1,200,000 leaving their net income \$1,000,000. In November, 1908, just a year later, and when the new laws were in thorough operation the report sworn to makes the remarkable disclosure that the same road received from operating revenues the sum of \$1,354,397.21. The operating expenses were \$877,432.92 leaving the net income \$1,476,964.29 or an increase of \$326,199.69 for one month and on the one road. This appears to be pretty healthy increase and does not justify the cry that railroad property is in danger of confiscation or that railroads are afraid to invest more money in Oklahoma. This is one instance but there are many more just like it. The corporation commission has one file many sworn statements that show even a larger increase in the net income of railroads.

Few people realize the care and thought that has been exercised in the legislature of the state and by the insurance commissioner to

place insurance both Fire and Life on an absolutely sound basis. We who live in Oklahoma have come to regard insurance as an absolutely safe proposition and so it is in Oklahoma and policies are paid and losses equitably adjusted with all possible haste. It has been a long time since any one heard of a loss not being paid on account of the insolvency of the company and we have come to view these things as a matter of course but in reality it is the result of wise laws and persistent vigilance on the part of the insurance commissioners who appear to have the faculty of detecting lakes to the same degree that a fine bird dog can locate a quail and McComb is not slow in ousting unsafe or questionable insurance companies. Oklahoma owes much to this quiet unassuming hard working official who believes that his first duty is the protection of the interests of the people.

In a recent letter to an insurance journal that had misrepresented the Oklahoma laws he said: "In Oklahoma we believe in insurance that insures means indemnity to insure to make certain we believe that insurance is one of the greatest businesses in America taken in all its branches. Oklahoma welcomes all insurance companies that are willing to comply with our laws and give to the people of the state a square deal but we positively turn our backs on the institutions that will not comply with our laws."

The above quotation serves to show that a healthy condition in Oklahoma is not the result of chance. While speeding along on a flying express passenger often forgets that it requires an infinite amount of care and caution to provide for his safety and that the said care is the only thing that stands between him and destruction and the situation is not materially different from that of the man who is enjoying the safety provided against disaster by insurance. It is all right so long as every precaution is exercised to prevent wild cat companies from wrecking the insurance train. Just now we are fortunate in having an experienced and competent engineer.

What? The big Banquet? When? Tomorrow night.

### CONFIDENCE

We Back up Our Statements With Our Personal Reputation and Money.

We are so positive that we can cure constipation no matter how chronic it may be that we offer to furnish the medicine free of all cost if we fail.

It is worse than useless to attempt to cure constipation with cathartic drugs. Cathartics or cathartics do much harm. They cause a reaction in the system and weaken the bowels and make constipation more chronic. Besides their use becomes a habit that is dangerous and often fatal.

Constipation is caused by weakness of the nerves and muscles of the large intestine or descending colon. To expect a cure you must therefore tone up and strengthen those organs and restore them to healthier activity.

The discovery of the active principle of our remedy evolved the labor of the world's greatest research chemists. It possesses all the best qualities of the remedial active principle of the best known intestinal tonics and it is particularly prompt in its results.

We want you to try Revall's Orderline on our guarantee. They are exceedingly pleasant to take and are ideal for children. They act directly on the

nerves and muscles of the bowels. They have a neutral action on other organs or glands. They do not purge or cause any inconvenience whatever. They will positively cure chronic or habitual constipation and the myriads of associate or dependent chronic ailments. Try Revall's Orderline at our risk. The Gwin-Mays Drug Co. ## OUR WASHINGTON LETTER

Special to the News

Washington April 1.—The republic party has suddenly awakened to a realization of irreparable losses as a result of its fight over Cannon and the house rules. The dissension today existing in the ranks is of such serious proportions in the opinion of many as to practically insure a democratic majority for the next congress

The insurgents' of the republican party have said good bye to the 'standpatters' for all time. This may be put down as final and authentic

Indications are the split in the national republican situation will be very similar to that in the Iowa state republican party. It is not unlikely that within the next year or two there will grow out of the present insurgent forces a national progressive party

Today the insurgent band's strength is insignificant. But the sentiment of the republican voters with the insurgents according to all indications because they fought Cannon and the rules

That the regular organization is a utter disrepute with a large percentage of republican voters can not be denied. The party has put its O. K. in large black letters on Speak or Cannon and the rules that he was refused to sign

Work toward organizing the various insurgent forces in various parts of the country will begin at once in order that it is a table strength will be in working order for us in the next congress if elections in 1911

The work will be done very quickly and in all probability without making any general announcements that would tend to attract the attention of the standpatters. The insurgents' plans are to build up organizations in the central and western states first and to let low until it comes time to nominate candidates and then give the Cannon-Payne Aldrich Daizell crowd the surprise of their lives

The LaTolette organization in Wisconsin will co-operate with the Murnus forces of Iowa and Victor Muddock the insurgent leader of Kansas will join with his following and even Garden City, Kansas may come through with a little Progressive machine

With the republicans thus divided the country is ripe for a home the home

ONE WEAK SPOT.

Most Ada People Have a Weak Part and Too Often It's the Back.

Is anyone else a weak spot? Too often it's a bad back. It aches follow every sudden twist. Dull aching keeps up day and night.

Tells you the kidneys need help—For backache is really kidney ache. A kidney cure is what you need. Doan's Kidney Pills cures sick kidneys

Cures backache and urinary ills. Ada people recommend the remedy. E. L. Canterbury Sixteenth St. Ada, Okla. says I can recommend Doan's Kidney Pills very highly as they cured me of a distressing case of kidney complaint. My back was so weak at times that I was unable to work in fact found it very difficult to walk. Dull nagging pains through my loins also caused me great misery and I had sharp twinges when I attempted to stoop or lift. The kidney secretions were much too frequent in passage and caused me additional annoyance. Doan's Kidney Pills procured at G. M. Ramsey's Drug Store rid me of the trouble and I have had no return of it since.

**THE GREAT COMMONER DELIVERS ADDRESS AT CITY HALL.**  
Expects to Spend Winters on His Texas Ranch and Become Better Acquainted With Texas People.

Fort Worth, Tex., April 1.—The city hall was packed to its capacity of about 900 people tonight to hear William Jennings Bryan, who lectured in behalf of the Children's Home Society and the Jeff D. McLean monument fund.

Mr. Bryan arrived in the city this evening over the Fort Worth and Denver and was met at the station by a reception committee, consisting of Col. R. M. Wynne, Rev. I. Z. T. Morris, Rev. H. A. Boaz, Robert McCart, John Terrell, W. P. McLean, Clarence Ousley, T. J. Powell, Robert Milam, W. D. Williams, Frank Hovenkamp, W. A. Hauger, Tom Bradley, J. W. Swayne, George Milkey, Winfield Scott, Sam Hunter, Dr. Frank Boyd, Dr. E. L. Stephens, Walton Petter, Rev. Sam R. Hay, Rev. J. W. Fort, Rev. H. M. Long and Judge George W. Armstrong.

Mr. Bryan was entertained at a 6 o'clock dinner at Polytechnic College by the president, Dr. H. A. Boaz. Preceding his arrival at the city hall the Polytechnic Glee Club, consisting of sixteen voices, under direction of Prof. Hemphill, rendered a number of selections, and following each they were vigorously encored, responding each time, the finale being a quartette.

It was near 9 o'clock when Mr. Bryan arrived at the hall. As soon as his presence at the entrance became known, a storm of cheers went up, which was prolonged until long after he had reached the rostrum.

Col. R. M. Wynne stepped to the front of the rostrum and announced that after the lecture Mr. Bryan would be pleased to meet and shake hands with those desiring to meet him.

On the platform with Mr. Bryan were Col. R. M. Wynne, George Carden, Judge Sam Hunter and Robert McCart. The speaker was introduced by Mr. McCart, who paid a glowing tribute to the distinguished guest, declaring him to be the greatest statesman in America, and one whose name will be written on the pages of fame as the people's greatest benefactor of the age, finally introducing him as the "Uncrowned King of our Nation."

"I am glad," said Mr. Bryan, "that we can find in politics friends so kind as to magnify our virtues and overlook our faults. In war, the general gets the glory that belongs to the men who died in the trenches. I have more to be grateful for even in the comments of the republicans, than I have to complain of. In the discussion of my subject this evening, 'The Price of a Soul,' I am to prepare the ground for a harvest of political results that will make the greatness of our country and the good of humanity."

"I have no apologies to offer for taking my subject from the Bible. Christ dealt with the great things and among these with reference to the soul. Christ asks the question 'What shall it profit a man though he gain the whole world and lose his own soul?' The value of a soul—what is comparable to it?"

Along this line the speaker proceeded, contrasting wealth, political honors and fame, without the real soulfulness back of it that makes for the betterment of the world and humanity, with the value of a soul, not merely as to its salvation, but as to its real value, when others are made partakers of its greatness and the world made better.

He was frequently applauded by the appreciative audience, his logic and eloquence touching a responsive chord.

Mr. Bryan said tonight that he hoped to see more of the people of Texas than heretofore, as he expects to spend the winters on his ranch on the Rio Grande. He had little to say in an interview relative to matters of a political nature.

He will leave over the Priceo for Brownwood tomorrow morning.

**Woman's Methods That Aroused Wonder and Admiration.**

"If I had my wife's head and nerve I'd own half of Wall street in less than five years," said the man. "It is the way she manages the clothes proposition that aroused me to wonder and admiration. Here is an example of her thrift."

"Early last month she bought a broadcloth dress which, with the extra charge for alterations, cost \$35. Well, after she got the suit home she didn't like it. The store objected at first to taking it back, but her persuasive tongue won them over, and after deducting \$5 for the alterations, they refunded the money. Last week, when noising around, she saw that same suit on sale for \$35. My wife, it seems, has such a peculiar figure that the suit, after being made to fit her, wouldn't fit anybody else, so there was that \$50 garment, and cheap at the price, going for almost one-third off. She of course snatched up the bargain. No more fitting or making over was necessary, so even when counting in her \$5 for alterations, she saved \$15 on the deal. I'd just like you to show me any man who could cor out that well on a transaction in clothes."

**Wedding Ring Arrangement That Englishman Thought Queer.**

"Of all your queer American customs," said the Englishman, "and you have many, you know—oh, yes, very many—the queerest is that of the oldest daughter of the first marriage of a woman who has been married twice wearing her mother's first wedding ring."

"How is that?" said the American woman. "That sounds rather complicated. I am afraid I didn't just catch it."

The Englishman repeated.

"In the two weeks that I have been in New York," he elucidated still further, "I have met four maiden ladies of 35 to 45 years of age who wore wedding rings. I asked for an explanation, and each time I found that it was the ring with which the lady's father married her mother. When the mother married again she gave the ring to her oldest daughter. Don't you think that queer?"

"I certainly do," said the American woman, "still I can't believe that it is a national custom or I should have heard of it before."—New York Press.

**Lived Long as Hermit.**

There has been discovered in the Australian "bush" or forests a wild Irishman, who had been leading a hermit life for a quarter century. He was of gigantic stature and enormous strength—a good advertisement for vegetarianism, as he had not touched animal food since his retirement from civilization. His hair was four feet long, matted and of considerable thickness. He told the police he was a follower of Christ, Samson and Hercules. His name is John Bernard Fitzgerald and he is 72 years of age. He has never bathed, regarding the practice as irreligious and unnatural. The combined force of half a dozen police, however, compelled him to overcome his scruples.

**Paid for Bride by the Pound.**

In the village of Kolked, in Hungary, it has since time immemorial been customary for the bridegroom to give the bride's parents some compensation before the wedding. The other day a peasant farmer named Kotvoos and the parents of his pretty young betrothed could not come to terms as to the amount, and so they agreed to make the mayor arbitrator. That good man, a cattle dealer, valued the bride at 60 cents a pound. As she weighed 36 pounds the happy bridegroom had to pay only \$51.80, and thought himself lucky to get a wife so cheap.

**Chemical Formulas.**

In chemistry the elements are represented by accepted abbreviations, called symbols, each of which indicates a single atom of the element. When more than one atom is to be represented, figures are placed to the right of the symbol either above or below the line. A molecule representing a compound is indicated by a series of such symbols called a formula; thus alcohol has for its formula C<sub>2</sub>H<sub>6</sub>O, which shows that a molecule of this substance contains two atoms of carbon, six of hydrogen and one of oxygen.

**Breaking the Rule.**

"At our establishment," said the merchant, "we are training our employees to say 'Good-morning,' or 'Good-afternoon' at the telephone, instead of 'Hello.'"

**How does it work?**

"It works very well, indeed. Seems to please our customers and gives the establishment an air of dignity. The only trouble we have is with me. I'm the president, you know, and I forget. There's nobody to jog my memory nor call me down. Otherwise it works all right."

**The Value of Politeness.**

Hollow trees are always the stiffest, but the mightiest oak, it is found, can bend. That more exalted a man is by station, the more powerful should he be by kindness. There is no policy like politeness, since a good manner often succeeds where the best tongue has failed. Politeness is most useful to inspire confidence in the timid and encourage the deservings.—The Sunday Strand.

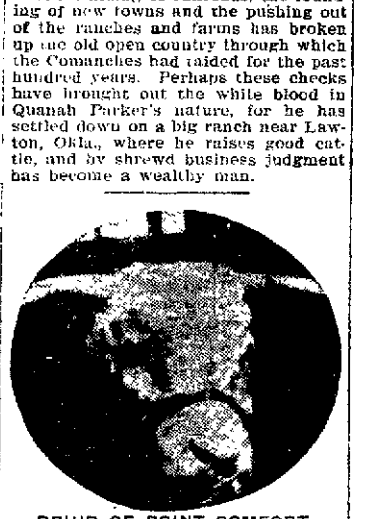

**INDIAN ROMANCE.**  
**Quanah Parker, Noted Chief, Has Wonderful Life Story.**  
**IS NOW A BIG RANCHMAN**

Lives Near Lawton, Okla., but Will Join Geronimo in Leading Band of Braves at Fat Stock Show at Fort Worth Shortly.

Born of a white mother, whom his grandfather stole in 1836, from a frontier Texas settlement, and a celebrated Indian chief, whom Lawrence Sullivan Ross and a fellow ranger killed in personal combat in 1860, Quanah Parker, chief of Comanches, who, with Geronimo, chief of the Apaches, comes to Fort Worth with forty of their people during the National Feeders and Breeders' Show, March 13 to 30, has a life story which recalls much of the romance of early Texas history.

First in the story comes the attack on Parker's Fort, in what is now Limon county, the murder of Silas and John Parker and the carrying away with them of Cynthia Ann Parker. There follows a break of many years in the story, and next comes the duel to the death in Peace river breaks, in 1860, when Lawrence "Soll" Ross, then an eighteen-year-old ranger of fiercer, killed Peta Nacona, chief of the warring Comanches, and captured his squaw, who turned out to be the long lost Cynthia Ann. Cynthia Ann had been too long an Indian, to say very much about herself, but it was learned that she had two sons, one of whom was Quanah Parker, and the other had died before reaching maturity. Quanah Parker, the surviving son, and leader of his people for forty years, is the man who will head the band of Indians at Fort Worth.

The building of railroads, the founding of new towns and the pushing out of the ranches and farms has broken up the old open country through which the Comanches had raided for the past hundred years. Perhaps these checks have brought out the white blood in Quanah Parker's nature, for he has settled down on a big ranch near Lawton, Okla., where he raises good cattle, and by shrewd business judgment has become a wealthy man.

**ACRE OF STABLES.**  
Increased Accommodation For Stock at Fat Stock Show.

There will not be any "grand opera" appliances in connection with the National Feeders and Breeders' Show, to be held at Fort Worth March 13 to 20 this year. It will be remembered that last year it was necessary to use the mammoth tent in which Madame Sarah Bernhardt played when she toured Texas, for the overflow exhibit of cattle and horses from the stables under the big Coliseum. This year the directors of the show have provided better than "grand opera" accommodations for exhibitors, and when the show opens on March 13, new stables covering nearly an acre and a half, immediately adjoining the Coliseum on the north, will be ready for the accommodation of all the horses and cattle entered in the various classes.

With the new arrangements this year visitors may pass from the Coliseum out through the north door and enter the stables, making a complete tour without being exposed to the weather. In the new barns there are accommodations for 634 halter cattle, and these barns will be used exclusively for southern cattle. In the horse barns, which are part of the new buildings, are stalls for 125 head, and extra accommodations can be provided as needed. All cattle from above the quarantine line will be given accommodation in the basement of the Coliseum, thereby separating the cattle from north and south of the quarantine line and doing away with any danger of infection.

**RULING ON AGE.**  
Secretary of Fat Stock Show Decides on Lambs.

When is a lamb not a lamb? This is one of the problems which confronted Secretary Andrews and his assistant, Mr. C. C. French, this past week. They decided that it could be definitely classed as a lamb until after it was a year old. Full lambs fed through the winter for the spring market are thus made eligible for the \$100 first prize and \$150 in other prizes in sheep class No. 2.

Fat spring lambs easily bring from \$8 to \$10 per hundred weight, and have been known to go to the phenomenal price of \$25 per hundred weight, so that exhibitors, disappointed in obtaining one of the coveted cash prizes, are certain of realizing a satisfactory profit on any desirable stock they may bring to the show.

**Council Proceedings.**  
The City Council met in adjourned session Thursday night April 1, 1909. Mayor Harrison presided and the following aldermen present: Chapman, Sims, Hill, Hope, Little, Crowder, Evans, Absent Sutton.

Upon a motion by Sims and seconded by Evans the city clerk was instructed to advertise for bids for the construction of sanitary and storm and drainage sewers till 6 o'clock p. m., April 15, 1909. The Metropolitan Engineering and Construction Co. was given till Monday night, April 5th, to file their papers for paying 12th street on a motion by Evans, seconded by Sims.

Little moved and Hill seconded that a committee of three be appointed as a park committee. Carried and the Mayor appointed, Little, Hill and Chapman.

The council then went into executive session to allow architects to submit their plans for a city hall. G. H. Keen, L. Macklemurry and E. S. Peters, submitted plans and after careful consideration the council adopted Mr. Macklemurry's plans.

After considerable discussion of plans for building street crossings the council adjourned to meet at 5 o'clock p. m. April 2, 1909.

## OUR GUTHRIE CORRESPONDENT

Guthrie, April 1.—Senator Camp Bell Russell has his petitions ready to be signed which will be known as (State Question-Initiative Petition No. 2) commonly known as the New Journal Bill. It is in almost exact copy of the bill which was defeated in the Legislature. The title of the act is as follows: An Act to create a district to be known as a New Journal District and providing for the acquiring, locating, surveying, control and management of the same and making an appropriation therefor.

The act provides that any citizen may submit a proposition for location provided that options have been secured on all the land embraced which shall be not less than six sections, located within fifty miles of the center of the state. The commission of the school lands are empowered to sell to the state at its appraised value any school lands embraced in any proposed location.

Senator Russell says that the 28,000 acres necessary to initiate the measure will be filed by the first of May.

As an inducement to hunters he proposes to give a fine registered hunter to the person who secures the most petitions by the 22nd of this month. Mr. Russell says that a sister of the hunter was recently sold by him for \$110.

Everybody is familiar with the great cry that recently went up from the railroads against the laws of Oklahoma charging confiscation of property and loss of money in operating

the roads. The railroads bore down on the commercial clubs and the commercial clubs became alarmed and bore down on the people the press and the legislature. Our constitution requires a sworn report to be made to the Corporation Commission showing total operating revenues, operating expenses and net income for each month and these reports reveal that the railroads are making more money now than they did before the rates were reduced. Like for instance the report of the Gulf, Colorado and Santa Fe. During the month of November, 1907, their operating revenue was \$1,066,175. Their operating expenses were \$1,200,019, leaving their net income at \$119,719. In November, 1908, just a year later, when the new laws were in thorough operation the report shows that the remarkable disclosure that the same road received from operating revenues the sum of \$1,354,397.21. The operating expenses were \$877,432.97, leaving the net income \$1,476,964.28, an increase of \$326,199.69 for one month and on the one road. This appears to be pretty healthy increase and does not justify the cry that railroad property is in danger of confiscation or that railroads are afraid to invest more money in Oklahoma. This is one instance but there are many more just like it. The corporation commission has one file many sworn statements that show even a larger increase in the net income of railroads.

Few people realize the care and thought that has been exercised by the legislature of the state and by the insurance commissioner to

place insurance both Fire and Life on an absolutely sound basis. We who live in Oklahoma have come to regard insurance as an absolutely safe proposition and so it is. In Oklahoma and policies are paid and losses equitably adjusted with all possible haste. It has been a long time since any one heard of a loss not being paid on account of the insolvency of the company and we have come to view these things as a matter of course but in reality it is the result of wise laws and persistent vigilance on the part of the insurance commissioner who appears to have the faculty of detecting larks to the same degree that a fine bird dog can locate a quail and McCoull is not slow in ousting unsafe or questionable insurance companies. Oklahoma owes much to this quiet unassuming hard working official who believes that his first duty is the protection of the interests of the people.

In a recent letter to an insurance journal that had misrepresented the Oklahoma laws he said: "In Oklahoma we believe in insurance that insures we believe that insurance means indemnity to insure to make certain we believe that insurance is one of the greatest businesses in America taken in all its branches. Oklahoma welcomes all insurance companies that are willing to comply with our laws and give to the people of the state a square deal but we positively turn our backs on the institutions that will not comply with our laws."

The above quotation serves to show that a healthy condition in Oklahoma is not the result of chance. While speeding along on a flying express passenger often forgets that it requires an infinite amount of care and caution to provide for his safety and that the said care is the only thing that stands between him and destruction and the situation is not materially different from that of the man who is enjoying the safety provided against disaster by insurance. It is all right so long as every precaution is exercised to prevent wild cat companies from wrecking the insurance train. Just now we are fortunate in having an experienced and competent engineer.

### CONFIDENCE

We Back up Our Statements With Our Personal Reputation and Money.

We are so positive that we can cure constipation no matter how chronic it may be that we offer to furnish the medicine free of all cost if we fail.

It is worse than useless to attempt to cure constipation with cathartic drugs. Cathartics or cathartics do much harm. They cause a reaction in the system and weaken the bowels and make constipation more chronic. Besides their use becomes a habit that is dangerous and often fatal.

Constipation is caused by weakness of the nerves and muscles of the large intestine or descending colon. To expect a cure you must therefore tone up and strengthen those organs and restore them to healthier activity.

The discovery of the active principle of our remedy evolved the labor of the world's greatest research chemists. It possesses all the best qualities of the remedial active principle of the best known intestinal tonics and it is particularly prompt in its results.

We want you to try Revall Orderline on our guarantee. They are exceedingly pleasant to take and are ideal for children. They act directly on the

nerves and muscles of the bowels. They have a neutral action on other organs or glands. They do not purge or cause any inconvenience whatever. They will positively cure chronic or habitual constipation and the myriads of associate or dependent chronic ailments. Try Revall Orderline at our risk. The Gwin-Mays Drug Co. ## OUR WASHINGTON LETTER

Special to the News.

Washington April 1.—The republic

can party has suddenly awakened to

a realization of irreparable losses as

a result of its fight over Cannon and

the house rules. The dissension today

existing in the ranks is of such ser-

ious proportions in the opinion of

many as to practically insure a dem-

ocratic majority for the next con-

gress.

The insurgents' of the republican

party have said good bye to the

'standpatters' for all time. This may

be put down as final and authentic

indications are the split in the na-

tional republican situation will be

very similar to that in the Iowa

state republican party. It is not un-

likely that within the next year o-

two there will grow out of the pres-

ent insurgent forces a national pro-

gressive party.

Today the insurgent hands strength

is insignificant. But the sentiment

of the republican voters is with the

insurgents according to all indica-

tion because they fought Cannon

and the rules.

That the regular organization is

utterly disrepute with a large per-

centage of republican voters can not

be denied. The party has put its O

K in large black letters on Speak

er Cannon and the fact that he

was a traitor to the party is a

hand writing on the wall and must

take the consequences.

Work toward organizing the various

insurgent forces in various parts of

the country will begin at once in or-

der that all its able strength will

be in working order for us in the

next congress so that there is no

work will be done very quick

and in all probability without making

any general announcements that

would tend to attract the attention

# ET. WORTH ENTERTAINS WILLIAM J. BRYAN

## THE GREAT COMMONER DELIV- ERS ADDRESS AT CITY HALL.

Expects to Spend Winters on His  
Texas Ranch and Become Better  
Acquainted With Texas  
People.

Fort Worth, Tex., April 1.—The city hall was packed to its capacity of about 900 people tonight to hear William Jennings Bryan, who lectured in behalf of the Children's Home Society and the Jeff D. McLean monument fund.

Mr. Bryan arrived in the city this evening over the Fort Worth and Denver and was met at the station by a reception committee, consisting of Col. R. M. Wynne, Rev. I. Z. T. Morris, Rev. H. A. Boaz, Robert McCurt, John Terrell, W. P. McLean, Clarence Ousley, T. J. Powell, Robert Millam, W. D. Williams, Frank Hoventkamp, W. A. Hanger, Tom Bradley, J. W. Swayne, George Mulkey, Winfield Scott, Sam Hunter, Dr. Frank Boyd, Dr. E. L. Stephens, Walton Peters, Rev. Sam R. Hay, Rev. J. W. Fort, Rev. H. M. Long and Judge George W. Armstrong.

Mr. Bryan was entertained at a 6 o'clock dinner at Polytechnic College by the president, Dr. H. A. Boaz. Preceding his arrival at the city hall the Polytechnic Glee Club, consisting of sixteen voices, under direction of Prof. Hemphill, rendered a number of selections, and following each they were vigorously encored, responding each time, the finale being a quartette.

It was near 9 o'clock when Mr. Bryan arrived at the hall. As soon as his presence at the entrance became known a storm of cheers went up, which was prolonged until long after he had reached the rostrum.

Col. R. M. Wynne stepped to the front of the rostrum and announced that after the lecture Mr. Bryan would be pleased to meet and shake hands with those desiring to meet him.

On the platform with Mr. Bryan were Col. R. M. Wynne, George Carden, Judge Sam Hunter and Robert McCurt. The speaker was introduced by Mr. McCurt, who paid a glowing tribute to the distinguished guest, declaring him to be the greatest statesman in America, and one whose name will be written on the pages of fame as the people's greatest benefactor of the age, finally introducing him as the "Unconquered King of our Nation."

"I am glad," said Mr. Bryan, "that we can find in politics friends so kind as to magnify our virtues and overlook our faults, in war, the general gets the glory that belongs to the men who died in the trenches. I have more to be grateful for even to the comments of the republicans, than I have to complain of in the denunciation of my subject this evening. The Price of a Soul? I am to prepare the ground for a harvest of political results that will make for the greatness of our country and the good of humanity."

"I have no apologies to offer for taking my subject from the Bible. Christ dealt with the great things, and among these with reference to the soul. Christ asks the question 'What shall it profit a man though he gain the whole world and lose his own soul?' The value of a soul—what is comparable to it?"

Along this line the speaker proceeded, contrasting wealth, political honors and fame, without the real soulfulness back of it that makes for the betterment of the world and humanity, with the value of a soul, not merely as to its salvation, but as to its real value, when others are made partakers of its greatness and the world made better.

He was frequently applauded by the appreciative audience, his logic and eloquence touching a responsive chord.

Mr. Bryan said tonight that he hoped to see more of the people of Texas than heretofore, as he expects to spend the winters on his ranch on the Rio Grande. He had little to say in an interview relative to matters of a political nature.

He will leave over the Frisco for Brownwood tomorrow morning.

What? The big Banquet! When? Tomorrow night.

### Special Train.

A special train will be run to Konawa Saturday morning at nine o'clock returning at eleven, to enable all who desire to meet Governor Haskell and party and escort them to Ada. The fare will be sixty cents for the round trip and everybody who can do so should go.

## MAS FINE HEAD FOR BUSINESS.

Woman's Methods That Aroused Wonder and Admiration.

"If I had my wife's head and nerve I'd own half of Wall street in less than five years," said the man. "It is the way she manages the clothes proposition that aroused me to wonder and admiration. Here is an example of her thrift."

"Early last month she bought a broadcloth dress which, with the extra charge for alterations, cost \$55. Well, after she got the suit home she didn't like it. The store objected at first to taking it back, but her persuasive tongue won them over, and after deducting \$5 for the alterations, they refunded the money. Last week, when no one around, she saw that same suit on sale for \$35. My wife, it seems, has such a peculiar figure that the suit, after being made to fit her wouldn't fit anybody else, so there was that \$50 garment, and cheap at the price, going for almost one-third off. She of course snatched up the bargain. No more fitting or making over was necessary, so even when counting in her \$5 for alterations, she saved \$15 on the deal. I'd just like you to show me any man who could cor out that well on a transaction in clothes."

### CUSTOM PUZZLED THE VISITOR.

Wedding Ring Arrangement That Englishman Thought Queer.

"Of all your queer American customs," said the Englishman, "and you have many, you know—oh, yes, very many—the queerest is that of the oldest daughter of the first marriage of a woman who has been married twice wearing her mother's first wedding ring."

"How is that?" said the American woman.

"That sounds rather complicated. I am afraid I didn't just catch it."

The Englishman repeated.

"In the two weeks that I have been in New York," he elucidated still further, "I have met four maiden ladies of 35 to 45 years of age who wore wedding rings. I asked for an explanation, and each time I found that it was the ring with which the lady's father married her mother. When the mother married again she gave the ring to her oldest daughter. Don't you think that queer?"

"I certainly do," said the American woman, "still I can't believe that it is a national custom or I should have heard of it before."—New York Press.

### Lived Long as Hermit.

There has been discovered in the Australian "bush" or forests a wild Irishman, who had been leading a hermit life for a quarter century. He was of gigantic stature and enormous strength—a good advertisement for vegetarianism, as he had not touched animal food since his retirement from civilization. His hair was four feet long, matted and of considerable thickness. He told the police he was a follower of Christ, Samson and Hercules. His name is John Bernard Fitzgerald and he is 72 years of age. He has never bathed, regarding the practice as irreligious and unnatural. The combined force of half a dozen police, however, compelled him to overcome his scruples.

### Paid for Bride by the Pound.

In the village of Kolked, in Hungary, it has since time immemorial been customary for the bridegroom to give the bride's parents some compensation before the wedding. The other day a peasant farmer named Kotvoes and the parents of his pretty young betrothed could not come to terms as to the amount, and so they agreed to make the mayor arbitrator. That good man, a cattle dealer, valued the bride at 60 cents a pound. As she weighed 35 pounds the happy bridegroom had to pay only \$21.80, and thought himself lucky to get a wife so cheap.

### Chemical Formulas.

In chemistry the elements are represented by accepted abbreviations, called symbols, each of which indicates a single atom of the element. When more than one atom is to be represented, figures are placed to the right of the symbol either above or below the line. A molecule representing a compound is indicated by a series of such symbols called a formula; thus alcohol has for its formula C<sub>2</sub>H<sub>6</sub>O, which shows that a molecule of this substance contains two atoms of carbon, six of hydrogen and one of oxygen.

### Breaking the Rule.

"At our establishment," said the merchant, "we are training our employees to say 'Good-morning,' or 'Good-afternoon' at the telephone, instead of 'Hello.'"

"How does it work?"

"It works very well, indeed. Seems to please our customers and gives the establishment an air of dignity. The only trouble we have is with me. I'm the president, you know, and I forget. There's nobody to jog my memory nor call me down. Otherwise it works all right."

### The Value of Politeness.

Hollow trees are always the stiffest, but the mightiest oak, if it is found, can bend. The more exalted a man is by station, the more powerful should he be by kindness. There is no policy like politeness, since a good manner often succeeds where the best tongue has failed. Politeness is most useful to inspire confidence in the timid and encourage the deservings.—The Sunday Strand.

## INDIAN ROMANCE.

Quannah Parker, Noted Chief,  
Has Wonderful Life Story.

### IS NOW A BIG RANCHMAN

Lives Near Lawton, Okla., but Will Join Geronimo in Leading Band of Braves at Fat Stock Show at Fort Worth Shortly.

Born of a white mother, whom his grandfather stole in 1836, from a frontier Texas settlement, and a celebrated Indian chief, whom Lawrence Sullivan Ross and a fellow ranger killed in personal combat in 1869 Quannah Parker, chief of Comanches, who, with Geronimo, chief of the Apaches, comes to Fort Worth with forty of their people during the National Feeders and Breeders' Show, March 13 to 30, has a life story which recalls much of the romance of early Texas history.

First in the story comes the attack on Parker's Fort, in what is now Lime-stone county, the murder of Silas and John Parker and the carrying away with them of Cynthia Ann Parker. There follows a break of many years in the story, and next comes the duel to the death in Pecos river breaks, in 1860, when Lawrence "Sul" Ross, then an eighteen-year-old ranger officer, killed Peta Nacoma, chief of the warring Comanches, and captured his square, who turned out to be the long lost Cynthia Ann. Cynthia Ann had been too long an Indian to say very much about herself, but it was learned that she had two sons, one of whom was Quannah Parker, and the other had died before reaching maturity. Quannah Parker, the surviving son, and leader of his people for forty years, is the man who will head the band of Indians at Fort Worth.

The building of railroads, the founding of new towns and the pushing out of the ranches and farms has broken up the old open country through which the Comanches had roamed for the past hundred years. Perhaps these checks have brought out the white blood in Quannah Parker's nature, for he has settled down on a big ranch near Lawton, Okla., where he raises good cattle, and by shrewd business judgment has become a wealthy man.

### ACRE OF STABLES.

Increased Accommodation For Stock at Fat Stock Show.

"There will not be any 'grand opera' appliances in connection with the National Feeders and Breeders' Show, to be held at Fort Worth March 13 to 20 this year. It will be remembered that last year it was necessary to use the mammoth tent in which Madame Sarah Bernhardt played when she toured Texas, for the overflow exhibit of cattle and horses from the stables under the big Coliseum. This year the directors of the show have provided better than "grand opera" accommodations for exhibitors, and when the show opens on March 13, new stables covering nearly an acre and a half, immediately adjoining the Coliseum on the north, will be ready for the accommodation of all the horses and cattle entered in the various classes.

With the new arrangements this year visitors may pass from the Coliseum out through the north door and enter the stables, making a complete tour without being exposed to the weather. In the new barns there are accommodations for 634 header cattle, and these barns will be used exclusively for southern cattle. In the horse barns, which are part of the new buildings, are stalls for 125 head, and extra accommodations can be provided as needed. All cattle from above the quarantine line will be given accommodation in the basement of the Coliseum, thereby separating the cattle from north and south of the quarantine line and doing away with any danger of infection.

### RULING ON AGE.

Secretary of Fat Stock Show Decides on Lambs.

When is a lamb not a lamb? This is one of the problems which confronted Secretary Andrews and his assistant, Mr. C. C. French, this past week. They decided that it could be definitely classed as a lamb until after it was a year old. Full lambs fed through the winter for the spring market are thus made eligible for the \$100 first prize and \$150 in other prizes in sheep class No. 2.

Fat spring lambs easily bring from \$5 to \$10 per hundred weight, and have been known to go to the phenomenal price of \$25 per hundredweight, so that exhibitors, disappointed in obtaining one of the coveted cash prizes, are certain of realizing a satisfactory profit on any desirable stock they may bring to the show.

## Council Proceedings.

The City Council met in adjourned session Thursday night April 1, 1909. Mayor Harrison presided and the following aldermen present: Chapman, Sims, Hill, Hope, Little, Crowder, Evans, Absent Sutton.

Upon a motion by Sims and seconded by Evans the city clerk was instructed to advertise for bids for the construction of sanitary and storm and drainage sewers till 6 o'clock p. m., April 15, 1909. The Metropolitan Engineering and Construction Co. was given till Monday night, April 5th, to file their papers for paying 12th street on a motion by Evans, seconded by Sims.

Little moved and Hill seconded that a committee of three be appointed as a park committee. Carried and the Mayor appointed, Little, Hill and Chapman.

The council then went into executive session to allow architects to submit their plans for a city hall. G. H. Keen, L. Macklemurry and E. S. Peters, submitted plans and after careful consideration the council adopted Mr. Macklemurry's plans.

After considerable discussion of plans for building street crossings the council adjourned to meet at 5 o'clock p. m. April 2, 1909.
